An effective method for figuring out a price is to send out a survey to your current customers. If these customers have already purchased an book from you, ask for his or her opinion when it comes to price. Do this by creating a sales web page for the brand new e book, but do not embrace a value on that page. As an alternative, add quite a few hyperlinks to survey questions that ask pointed questions to aid you in assigning a worth to your ebook.

One other technique is to check out costs by creating a variety of duplicate sales pages with completely different prices on every page. Be certain your sales copy is exactly the same on each

page, and includes your promoting-deal with sentence. Then work out for every page the conversion ratio between guests to your site and gross sales of your book. It will tell you what your optimum price is.

In the end, should you've written a book that solves a drawback or presents a brand new approach, your ebook will bring in both traffic and profits.
