Besides promoting your books assiduously on-line, there are a number of other methods that may show you how to sell more books.

One is to give something away without cost with your guide, resembling a helpful bonus item. Or bundle several ebooks underneath one value, which lowers the value for every e book if they had been sold separately.

An effective method for figuring out a value is to send out a survey to your current customers. If these customers have already bought an e book from you, ask for his or her opinion when it comes to price. Do this by making a gross sales web page for the new e-book, but don't include a value on that page. As an alternative, add a lot of hyperlinks to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

One other technique is to check out costs by creating a variety of duplicate sales pages with completely different prices on every page. Ensure your sales copy is exactly the similar on every

web page, and includes your promoting-deal with sentence. Then work out for each page the conversion ratio between visitors to your site and sales of your book. It will tell you what your optimum worth is.
