An effective technique for determining a price is to send out a survey to your current customers. If these clients have already purchased an e-book from you, ask for their opinion in terms of price. Do this by making a sales page for the new e-book, however do not embody a value on that page. Instead, add a variety of links to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

One other strategy is to check out costs by creating a variety of duplicate sales pages with different prices on each page. Make sure that your gross sales copy is exactly the similar on every web page, and contains your promoting-handle sentence. Then figure out for every page the conversion ratio between guests to your website and gross sales of your book. It will inform you what your optimum price is.

In the end, in the event you've written a book that solves a downside or presents a brand new technique, your book will usher in each site visitors and profits.
