An efficient approach for figuring out a price is to ship out a survey to your present customers. If these customers have already bought an book from you, ask for his or her opinion by way of price. Do that by making a sales page for the brand new ebook, but don't embrace a price on that page. Instead, add a lot of links to survey questions that ask pointed questions to help you in assigning a worth to your ebook.

One other technique is to test out prices by creating a variety of duplicate gross sales pages with different prices on every page. Be certain that your sales copy is strictly the similar on each page, and includes your selling-handle sentence. Then figure out for each page the conversion ratio between guests to your website and sales of your book. This will tell you what your optimum price is.
